Jungle Fort Roof Tarps

Multi-colored or solid "Marine Grade" vinyl roof tarps are seamed on all sides. Your choice of a solid or multi-colored top is included with all project kits. Five stainless-steel snaps and wood studs for each of the two shorter sides are included for easy installation and removal. Studs are screwed into the wood where needed to line up with snaps that are seamed into the edges of the tarp.

Available in the following colors:

Custom Sized Tarps Available!
Calculate Your Needs Online!

2+ STEPS TO CALCULATING YOUR Custom Playground Roof Tarp

1. Measure Width and Length dimensions for your fort roof. Width is the dimension of sides that will have the snaps or grommets. Length is the dimension of sides that will go over roof peak. If you do not have an old fort roof to measure, a string can be used to simulate the lie of the fort roof. Remove the string and measure it to determine Length.
2. Order online at www.detailedplay.com to calculate the price of your custom playground roof automatically. Under PLAYGROUND EQUIPMENT select [CUSTOM VINYL TARPS].
 1. Enter the quantity, select the color and enter the fastener type.
 2. Enter total width and total length of fort roof(s)
 3. Add items and the price will be auto calculated.

HEAVY DUTY MARINE-GRADE VINYL!

For fast, secure ordering, additional products and specials. Call us toll free or order online!

Jungle Fort Sandbox Covers

Solid "Marine Grade" vinyl/nylon seamed on all sides. Three stainless snaps and wood studs for all four sides are included for easy installation and removal. Studs are screwed into the wood where needed to line up with the snaps that are seamed into the edges of the tarp. Solid vinyl, not meshed. A grommet hole in the center of cover permits easy drainage of most water to center, keeping most of the sand dry and bailing to a minimum!

Available in the following colors: Blue Green Red

2+ STEPS TO CALCULATING YOUR Custom Playground Sandbox Cover

1. Measure width and length dimensions for your sandbox, from outside edge to outside edge. Determine if cutouts in all four corners are required (for 4x4 posts on inside of sandbox framing).
2. Order online at www.detailedplay.com to calculate the price of your custom playground sandbox cover automatically. Under PLAYGROUND EQUIPMENT select [CUSTOM VINYL TARPS].
 1. Enter the quantity, select the color and enter the fastener type.

NOTE: You may order one of the (6) roof tarp colors above.

 2. Enter total width and total length of your sandbox(es)
 3. Add items and the price will be auto calculated.

Jungle Fort Flags

Available in the following colors/combinations:
Add more color and fun to the top of a child's Fort or Tower with our colorful marine-grade vinyl flags! Large 12"x18" design utilizes more stitching for durability. Complete with 5/8" hardwood dowel with 3/8" tenon at bottom for easy installation.

We make custom orders easy!
